

Biography

Department of the Army

Joe C. Capps

Deputy to the Commanding General
US Army Signal Center and Fort Gordon
Fort Gordon, Georgia

Mr. Capps was selected for the Senior Executive Service in May 2003 and he assumed his current position in July 2007. He serves as the Deputy to the Commanding General with full authority to direct the actions of Signal Center personnel and is the principal advisor to the Commanding General on all matters related to the Signal Center of Excellence. Mr. Capps ensures that all programs are systematically integrated into the overall plan of operations for the Signal Center of Excellence. His primary focus is training and educating military and Department of Army civilian Signal/Information Technology professionals, doctrine, quality assurance, new equipment integration, force integration, and mobilization. He is also responsible for the integration of the Signal proponent mission into joint training initiatives that train and educate Soldiers, Airman, Sailors, Marines, international students, officers, and Department of Defense civilians, and for providing year-round training for 60,000 Active Component/Reserve Component service members.

From May 2003 until assuming his current position, Mr. Capps was the Director, Enterprise Systems Technology Activity for the U.S. Army Network Enterprise Technology Command/9th Army Signal Command in Washington, D.C. As the Director, Mr. Capps was responsible for developing, implementing, and enforcing enterprise systems management processes and activities required to operate and manage the transformed Army infrastructure at the enterprise level.
